Greetings!

You are receiving this newsletter because you have either expressed an interest in A Place to Grow by signing up with us at a Home Show or you are a friend of A Place to Grow!

## We Need Your Vote!

A Place to Grow, Recycled Greenhouses has entered in to the Martha Stewart American Made Contest that features entrepreneurs' that are recognized for ingenuity and excellence by the American Made community.

**We need your help to win.** Here is what you do: sign up and vote up to 6 times a day for our entry... its just that easy!!!

Here is the link, once you sign up and confirm the email they send you, you can vote up to 6 votes per day! The contest extends through September 13<sup>th</sup>-thank you for your votes!!

## Sunset Magazine's Savor the Central Coast

Savor the Central Coast has invited us to set up one of our greenhouses at their event September 28 & 29 at Santa Margarita Ranch-we are honored that they love what we are doing and want us to be a featured business at this auspicious event!! Please stop by and see us if you are planning on attending!

## California Mid State Fair

A Place to Grow teamed up with Armet's Landscape at the 2013 Mid State Fair this past July and took home 1st Place And Best in Show for our Outdoor Dining Room!!

Outdoor Dining Room

**We've Moved!**

July 1st we moved to our new location in San Luis Obispo at 950 Orcutt Road! This has been a great move for us as we are now sharing space with a reclaimed wood operation called Box Kite Barnyard who provides the majority of our reclaimed materials! We also have access through Box Kite Barnyards to beautiful urban forested lumber- What is "urban forested lumber" you may ask?

This is lumber milled from trees that have fallen on their own or trees that an arborist has determined must be removed. Our partners at Box Kite Barnyards have access to a mill and produce this lumber specifically for us to use in our structures. We also have access to 1" x 6" French oak flavor sticks used in the production of wine, these boards have a unique "hue" to them as they have absorbed the wine into them and retained a lot of the color. This picture shows them in one of our recent greenhouses.

## Calendar of Upcoming Events
