Now Available: Sunrise Over the Ocean!

A Place to Grow Children

100% Reclaimed Wood Potting Tables

Calendar of Upcoming Events

Greetings!

We just got back from traveling to the Alameda Home & Garden Show in Pleasanton, CA. We had a great time meeting everyone and sharing our vision of re-purposing and creating functionally artistic structures from construction waste materials that might otherwise end up in the landfill. Thank you to one and all who stopped by and took the time to find out what we are about at *A Place to Grow!*

At *A Place to Grow* we specialize in creating unique outdoor living spaces for you to grow, whether it's a greenhouse to grow plants, an artist studio/meditation retreat to grow spiritually or a hot tub enclosure to grow peace and tranquility. As soon as you are ready to start designing your own unique structure, please respond to this email or call us at 805.704.1155.

You received this newsletter because you expressed an interest in *A Place to Grow* by signing up with us at one of our events or on our web page.

We look forward to talking with you soon!

Dana

October's Featured Structure

At *A Place to Grow* we pride ourselves on helping our clients create spaces that help them grow in whatever way they choose.

We recently had the honor of creating this playhouse for our client's granddaughters! This structure features a Dutch door that we created using a standard door which we converted to a Dutch door. The back wall features a Palladian (sunburst) style window and the side walls feature French windows turned horizontally. As you can see, our client's granddaughters love their *Place to Grow*!

If you would like to schedule an appointment to talk about creating your very own *Place to Grow* please respond to this email or give us a call at 805.704.1155.

Now Available: Sunrise Over the Ocean Structure!

We finished our last home & garden show of the 2014 season in Alameda this past weekend and are officially releasing the "Sunrise Over the Ocean" three-sided structure for sale!

This outdoor structure features urban forested red wood, antique French style windows, Corten metal, redwood fence boards, French door re-purposed as a window and a back wall featuring an antique sunburst (Palladium) window with marine wood below it from a decommissioned bait barge off the coast of San Diego. We designed this structure to portray the sun (sunburst window) rising over the ocean (marine wood) with the white boards envisioned as the white caps on the ocean. The rust in the metal elements was designed to bring out the rust in the marine wood. Some of the marine wood even has barnacles still on it.

At *A Place to Grow* we believe in creating functionally artistic outdoor spaces for our clients.

If you have a special place in your yard for this unique structure, please give us a call at 805.704.1155 or email at Dana@RecycledGreenhouses.com

A Place to Grow Children

The significance of our name, *A Place to Grow*, is that we create sacred spaces for our clients to grow in whatever way they want. They can grow plants or vegetables in a greenhouse, grow spiritually in a meditation retreat or artist studio. Lastly, we create places to grow children in that we donate greenhouses to children's organizations, such as Montessori and Charter Schools.

We recently donated this greenhouse to Bellevue-Santa Fe Charter School in Avila Beach, CA, where the children will be growing vegetables all year-round. The school's science teacher plans to teach his

classes in and around the greenhouse!

100% Reclaimed Wood Potting Tables

We are excited to offer unique potting tables in addition to our recycled structures!

This potting table is made of 100% reclaimed wood and has been re-purposed into a functional table that would complement any garden. This is a picture that one of our many happy clients sent us showing how she is using her table! We offer a delightful selection of these useful, yet artistic potting tables for sale at our shop located at 445 B Prado Road in San Luis Obispo. These tables come in 4' and 6' lengths and make great gifts!
