**Greetings!**

Here we are in February heading towards spring and we finally got some rain!! We are still hoping for a wet spring, and even though it makes our yards muddy, it will make for glorious gardens! At *A Place to Grow* we are excited about all that spring offers us and look forward to working with you to create your own place to grow whether its a greenhouse, artist studio or meditation retreat.

For those of you who I had the opportunity to speak with on the phone, it was a pleasure to talk with you. If you did not hear from me, I will be continuing to follow up with you over the next couple of months. If you would prefer to contact me directly with any questions or a future time to contact you, please respond to this email or call me at 805.704.1155.

You received this newsletter because you expressed an interest in *A Place to Grow* by signing up with us at one of our events or on our web page.

I look forward to talking with you soon!

Dana

**Grand Opening Celebration**

We had such a delightful time at our Grand Opening Celebration!! We had a wonderful turnout of past clients, future clients, friends and family.

The following are the lucky raffle winners:

**Re-purposed Mission Roof Tile Succulent Gardens:** Nancy Kunde, Steve Zak and Jim Talcott.  
**100% Reclaimed Wood Potting Table:** Dana Easton

**Hand Crafted Concrete Planter:** Stephanie Ewan

## Our First Donated Greenhouse

We celebrated the installation of our first donated greenhouse to the Montessori Children's School in San Luis Obispo by having a ribbon cutting ceremony on January 31, 2014.

Each of the children in the school personally thanked me for the greenhouse and presented me with a beautiful red tulip, creating the most amazing bouquet of tulips!!

At *A Place to Grow* we believe that children need to connect with our earth through planting seeds and watching them grow. The children at the Montessori

Children's School of San Luis Obispo plan to plant tomato seeds. Once they have grown to seedlings, they will sell them to fund their Art Program.

## Items for Sale

We are excited to offer a few other garden products in addition to our recycled structures!

This potting table is made of 100% reclaimed wood and has been re-purposed into a functional table that would complement any garden.

FLEX Concrete Studio hand crafts beautiful concrete planters. Each of the planters is unique and truly a work of art.

These clever, useful items make great gifts! Buy one for yourself and one for a friend!

## Unique Materials

We have many unique materials that we are sourcing from all over San Luis Obispo County, and recently outside the county as well. We have some reclaimed marine wood that brings beautiful texture and color to our structures, not to mention it comes with a very interesting story!

We also have some old redwood fence boards from the Paso Robles area that truly have the look and feel of barn wood, yet are priced lower than barn wood! These can be used on your outdoor structure and we are also using them on some of our potting tables.

We continue to have access to beautiful urban forested lumber. What is "urban forested lumber" you may ask? This is lumber milled from trees that have fallen on their own or trees that an arborist has determined must be removed. We have this lumber milled specifically for us to use in our structures.

If you would like to come by our workshop, please call ahead to schedule a visit at 805.704.1155.

---
