**Greetings!**

For those of you who live near us on the central coast of California, aren't you thankful the heat wave has finally passed? Records were broken and our beautiful emerald green hills turned to their customary summer golden brown. The good news is that everything is blooming and it's great weather to grow tomatoes!

At *A Place to Grow* we specialize in creating unique outdoor living spaces for you to grow, whether it's a greenhouse to grow plants or an artist studio/meditation retreat to grow spiritually. If you are ready to start designing your own unique structure, please respond to this email or call me at 805.704.1155.

You received this newsletter because you expressed an interest in *A Place to Grow* by signing up with us at one of our events or on our web page.

I look forward to talking with you soon!

Dana

**A Place to Grow Creativity**

*At A Place to Grow* we pride ourselves on helping our clients create spaces that help them grow in whatever

way they choose. We recently had the honor of creating this beautiful artist studio! This studio features arched windows and an arched door of which our client said "I have been carrying these windows and doors around with me for the past 8-10 years waiting for you to build this artist studio for me!" We took her windows and doors and designed the rest of the structure around them. The frame and some of the fill pieces are urban forested lumber. We re-purposed four doors as windows and brought in some tongue and groove redwood as siding. The gable ends, created using urban forested 2" by .75" strips with a 1/2" space in between, were designed to match an existing enclosure on her property. This is a truly unique and artistic structure!!

If you have a special window, whether it's stained glass or an antique, we would love to work with you to design it in to your own unique structure!

## Doves are a Symbol of Peace

We have a pair of doves that fly in and out and through our shop keeping an eye on what we are doing.

We recently noticed that they had made their nest in our outside covered area and realized that they had added two to their family!

We are honored that they chose to grow their family here with us and recognize that doves not only symbolize peace but also a new cycle of opportunities.

At *A Place to Grow* we embrace the opportunities that our clients bring us with their unique ideas for places to grow!

## Choose Your Unique Materials

We have many unique materials in stock that we have sourced from all over San Luis Obispo County, as well as from other counties in California.

We recently connected with the designers at Habitat Home & Garden. They specialize in finding artistically significant doors and windows from around the world such as those pictured here. We can design a unique structure for you featuring some of these truly one of a kind pieces that Habitat Home & Garden has made available to us at *A Place to Grow*.

Because each of our structures is custom created and a piece of art, they all come with a certificate of authenticity and the story of where the individual pieces came from. Our structures at *A Place to Grow* are works of art in every sense.

If you would like to come by our workshop to see some of these materials or schedule a design consultation, please call 805.704.1155 for an appointment.

## But Wait, There's More!

We are excited to offer a few other garden products in addition to our recycled structures!

This potting table is made of 100% reclaimed wood and has been re-purposed into a functional table that would complement any garden. We are offering these tables for sale at our shop located at 445 B Prado Road in San Luis Obispo and they are also available at Sage Ecological Nursery at 1188 Los Osos Valley Road, Los Osos, CA.

FLEX Concrete Studio hand crafts beautiful concrete Buddha heads and planters. Each of the planters is unique and truly a work of art.

These clever, useful items make great gifts, buy one for yourself and one for a friend!
