Greetings!

Happy Summer Solstice! The summer solstice occurs when the tilt of a planet's semi-axis, in either the northern or the southern hemisphere, is most inclined toward the star (sun) that it orbits. This events occurs annually during a hemisphere's summer, for us it was on Saturday, June 21st this year. The summer solstice day has the longest period of daylight meaning that we have more time to be outside tending our gardens or just relaxing and enjoying the outdoors!

At *A Place to Grow* we specialize in creating unique outdoor living spaces for you to grow, whether it's a greenhouse to grow plants or an artist studio/meditation retreat to grow spiritually. If you are ready to start designing your own unique structure, please respond to this email or call me at 805.704.1155.

You received this newsletter because you expressed an interest in *A Place to Grow* by signing up with us at one of our events or on our web page.

I look forward to talking with you soon!

Dana

Featured Structure

At A Place to Grow we pride ourselves on helping our

clients create spaces that help them grow in whatever way they choose.

We recently had the honor of creating this beautiful sewing room! This amazing structure features oversized French doors, a covered porch, old corrugated metal and antique windows. We also brought in old wood that was used as siding.

This is a truly unique and artistic structure! If you would like to schedule an appointment to talk about creating your very own *Place to Grow* please respond to this email or give me a call at 805.704.1155.

Giving Back

We recently had the pleasure of donating an arbor that we created from urban forested redwood, old windows and corrugated metal. In addition, it was adorned with old gate hinges and bridge washers. The urban forested redwood was donated by our friends at Pacific Coast Lumber who mill all of our redwood for us in a responsible way. All of their products are created from trees they have salvaged from a variety of sources.

This one of a kind arbor was donated to Habitat for Humanity to be auctioned off at their annual fundraiser last month. Habitat for Humanity is the only affordable housing provider that sells homes to very-low income families-hardworking families, who despite all their hard work, would never be able to own a home. Hooray for Habitat and the miracles it creates every day!

At *A Place to Grow* we believe in giving back to our community and specifically to children's organizations through the donating of greenhouses and other unique products such as this arbor and 100% reclaimed potting tables.

Choose Your Unique Materials

We have many unique materials in stock that we have sourced from all over San Luis Obispo County, as well as from other counties in California.

If you have a special window or door, whether it's stained glass or an antique, we would love to work with you to design it in to your own unique structure! This stained glass door is one of two doors that belong to our client and we are currently installing it in a beautiful greenhouse for her! At *A Place to Grow* we specialize in creating artistic outdoor spaces that are also functional.

Because each of our structures is custom created and a piece of art, they all come with a certificate of authenticity and the story of where the individual pieces came from. Our structures at *A Place to Grow* are works of art in every sense.

If you would like to come by our workshop to see some of these materials or schedule a design consultation, please call

805.704.1155 for an appointment.

But Wait, There's More!

We are excited to offer a few other garden products in addition to our recycled structures!

This potting table is made of 100% reclaimed wood and has been re-purposed into a functional table that would complement any garden. We are offering these tables for sale at our shop located at 445 B Prado Road in San Luis Obispo and they are also available at Sage Ecological Nursery at 1188 Los Osos Valley Road, Los Osos, CA.

FLEX Concrete Studio hand crafts beautiful concrete Buddha heads and planters. Each of the planters is unique and truly a work of art.

These clever, useful items make great gifts, buy one for yourself and one for a friend!
