Now Available: Sunrise Over the Ocean!

We Have Chicken Coops!

100% Reclaimed Wood Potting Tables

Calendar of Upcoming Events

Greetings!

We are saying goodbye to our beloved SAVOR Greenhouse pictured above. SAVOR has sold and will be moving to the Avila Valley this month. This particular structure is one of my favorites as the story it tells is amazing. We actually knew the tree that was custom milled for this structure. There was a fire in a local restaurant here in San Luis Obispo (Cabo San Luis Restaurant) where a beautiful old redwood in the back parking lot had its bark singed during the fire. The city required the redwood be removed, this is what we refer to as "urban forested redwood". Two years later this tree was custom milled for our SAVOR Greenhouse! As with SAVOR, each of our structures tells a story of where the original materials come from.

At *A Place to Grow* we specialize in creating unique outdoor living spaces for you to grow, whether it's a greenhouse to grow plants, an artist studio/meditation retreat to grow spiritually or a hot tub enclosure to grow peace and tranquility. As soon as you are ready to start designing your own unique structure, please respond to this email or call us at 805.704.1155.

You received this newsletter because you expressed an interest in *A Place to Grow* by signing up with us at one of our events or on our web page.

We look forward to talking with you soon!

January's Featured Structure

At *A Place to Grow* we pride ourselves on helping our clients create spaces that help them grow in whatever way they choose.

We recently had the honor of creating this unique and artistic art studio. We designed the walls using our client's windows and doors to create an outdoor space that will provide her the opportunity to create beautiful art! We also used some wood from an existing pergola and incorporated it into her structure making it all the more special!

If you would like to schedule an appointment to talk about creating your very own *Place to Grow* please respond to this email or give us a call at 805.704.1155.

Sneak Peek of Our 2015 Home Show Booth!

We are excited to be creating our 2015 Home Show Booth! Each year we create a new structure that encompasses the spirit of what we create here at *A Place to Grow*.

This year's Home Show Booth is no slouch when it comes to creative uses of reclaimed materials. Pictured here is a half wine barrel that we framed into our "Wine Bar Wall". This wall features a French door that drops down to a bar surface, the half wine barrel and some French oak wine flavor sticks used in the mass production of wine in large stainless steel tanks. What a great way to entertain friends and family!

We will be featuring this structure in an upcoming newsletter so keep an eye out for it! If you would like to talk to us about creating your outdoor space that includes a "Wine Bar Wall" give us a call at 805.704.1155 to schedule an appointment. You can also email me at Dana@RecycledGreenhouses.com.

Now Available: Sunrise Over the Ocean Structure!

Our beautiful Sunrise Over the Ocean Structure is now available for sale however, my beautiful daughter and her dog are not available!

This outdoor structure features urban forested red wood, antique French style windows, Corten metal, redwood fence boards, French door re-purposed as a window and a back wall featuring an antique sunburst (Palladium) window with marine wood below it from a decommissioned bait barge off the coast of San Diego. We designed this structure to portray the sun (sunburst window) rising over the ocean (marine wood) with the white boards envisioned as the white caps on the ocean. The rust in the metal elements was designed to bring out the rust in the marine wood. Some of the marine wood even has barnacles still on it. This stunning three-sided structure will become your favorite spot for entertaining, writing your memoirs or just relaxing at the end of the day.

At A Place to Grow we believe in creating functionally artistic outdoor spaces for our clients.

If you have a special place in your yard for this unique structure, please give us a call at 805.704.1155 or email at Dana@RecycledGreenhouses.com

We Have Chicken Coops!

We recently built a chicken coop from reclaimed fence boards, corrugated metal and other scrap material from other projects. We are passionate about keeping construction waste materials out of the landfill by using them to create outdoor structures that are functional yet artistic!

This chicken coop is definitely "eggceptional" in that it functions as a coop yet has the artistic flair that makes it unique! What chicken wouldn't love to lay her eggs in there? We also offer a chicken run that can be attached to the coop.

Come by our shop to see if this coop will work for you. It can hold up to 6 chickens and is built to be modular and moveable. The timing is great to start thinking about purchasing a coop for the spring season and baby chicks!

100% Reclaimed Wood Potting Tables

We are excited to offer unique potting tables in addition to our recycled structures!

This potting table is made of 100% reclaimed wood and has been re-purposed into a functional table that would complement any garden. This is

a picture that one of our many happy clients sent us showing how she is using her table! We offer a delightful selection of these useful, yet artistic potting tables for sale at our shop located at 445 B Prado Road in San Luis Obispo. These tables come in 4' and 6' lengths and make great gifts!

We also have garden arbors, which would be great for events or as an entrance to your garden! Come by and see what we have available. We will also have our smaller garden products, potting table, arbors and chicken coops, at Farm Supply in San Luis Obispo and Arroyo Grande starting February 2015!

Calendar of Upcoming Events

Upcoming in 2015

February
