December's Featured Structure: Another Los Osos She Shed!

We recently had the opportunity to create this unique and beautiful She Shed for another client in Los Osos!

This shed reflects our client's sense of beauty and style. She wanted the vintage look, so we used tinted primer covered by a whitewash. We then distressed every piece of wood as a finishing touch. The Dutch door was painted to match the front door of her home and features an antique, crystal door knob.

Inside, our client filled her sacred space with favorite pieces of furniture and special antiques that she has collected over the years. This unique shed is truly a work of art!

To schedule an appointment to talk about creating your very own *Place to Grow* please respond to this email or give us a call at 805.704.1155.

Happy Client Spotlight: Arroyo Grande Garden Room

We checked in with our client to see how she was enjoying her garden room. Her first response was, "Mornings are best, a cup of coffee and my kitchen window view into my garden room." Our client went on to say that her room calls to her to *come inside and play*. "This always makes for a happy day. I love my happy place!"

These words make us happy here at *A Place to Grow*, as we strive to enhance our client's lives by creating sacred spaces for them to grow in whatever way they want.

By creating this garden room for our client, it has allowed her to use her creativity to make it her own by adding a couple of doors and a side wall to what was originally part of the existing fence. By bringing in her sentimental pieces of art and windows, it truly reflects her unique and beautiful sense of peace and tranquility.

If you would like to talk to us about designing an outdoor room for you and have any windows or other sentimental materials that you would like us to incorporate into it, please call 805.704.1155 or email to schedule an appointment to talk about creating your very own *Place*

We Have Tool Sheds!

As we are heading into winter, one that some are predicting to be a wet El Niño winter, now is the ideal time to get a reclaimed wood tool shed to store all your yard implements to keep them from rusting. Our sheds are custom crafted using reclaimed wood, vintage windows and salvaged corrugated metal for the roof. We also bring in a clear panel on the roof to allow light in so that you can see what you have inside. Each tool shed is custom created by order.

Stop by to see what we have in stock. Our hours are M-F 9-5:00 and Saturdays by appointment.
