## Greetings!

I recently had the pleasure of working with [The Tribune](#) as they featured *A Place to Grow* in their Home & Garden section of the paper on Wednesday, February 25, 2015. If you haven't had the opportunity to read the article please click on the link above. Several of our clients were interviewed and their outdoor spaces were photographed for the article.

We are also in the process of filming a commercial that will be aired around the HGTV, *Fixer Upper*, *DIY*, *CNN Prime*, *Erin Burnett/Anderson Cooper* and *Barn wood Builders* programs to name a few. The picture above, next to the table of contents, was taken during the filming of the commercial. Keep an eye out for our commercial and let us know what you think!

At *A Place to Grow* we specialize in creating unique outdoor living spaces for you to grow, whether it's a greenhouse to grow plants, an artist studio/meditation retreat to grow spiritually or a hot tub enclosure to grow peace and tranquility. As soon as you are ready to start designing your own unique structure, please respond to this email or call us at 805.704.1155.

You received this newsletter because you expressed an interest in *A Place to Grow* by signing up with us at one of our events or on our web page.

We look forward to talking with you soon!

Dana

## March's Featured Structure:

At *A Place to Grow* we pride ourselves on creating sacred spaces that help our clients grow in whatever way they choose.

We recently created this unique and artistic outdoor dining room that features our client's vintage metal gates. These beautiful gates are in the back wall and are flanked by French oak wine flavor sticks from the production of wine in stainless steel tanks. The front and back beams of the structure are marine wood from a de-commissioned bait barge off the coast of San Diego. The patina is a beautiful aquamarine color with streaks of rust from the bolts that held it together!

On the left wall there are two large multi-pane windows that bring the outdoors in. The right wall features a "Wine Bar" wall with a French door that is re-purposed as a bar top with French oak wine flavor sticks on either side of the bar. What a great place to gather with friends and family to create beautiful memories!

The front and back beams of the structure are marine wood from a de-commissioned bait barge off the coast of San Diego. The patina is a beautiful aquamarine color with streaks of rust from the bolts that held it together!

If you would like to schedule an appointment to talk about creating your very own *Place to Grow* please respond to this email or give us a call at 805.704.1155.

## Meet the Carpenter- Shawn Evans

Shawn is a San Luis Obispo local who has lived on the Central Coast for 25 years. He brings with him 14 years of various types of construction experience such as carpentry, painting, masonry, tile, hardwood floors and even some large scale construction projects. Although he was born in San Mateo, he considers SLO his permanent home. Shawn lives here with his 12 year old son Jake, and they enjoy surfing, hiking and being out in nature as much as they can.

When I asked Shawn what he liked about working with us at *A Place to Grow*, he said that he enjoys incorporating art into his work. He went on to say that he loves the opportunity for creativity and truly enjoys working with re-purposed materials such as the old wood, windows and doors that we use in our structures.

Shawn also said that he prefers finish work such as we do here. We consider our structures to be "finish framed" in that all the framing shows, so they need to be built with an eye towards detail and art.

Shawn has been with us for 4 months now and we look forward to having him *grow* with us!

## Goodbye to Sunrise Over the Ocean!

Our beautiful Sunrise Over the Ocean Structure is now located in beautiful Paso Robles! This truly exceptional structure tells a unique story through the materials used to build it.

This outdoor structure features urban forested red wood, antique French style windows, Corten metal, redwood fence boards, French door re-purposed as a window and a back wall featuring an antique sunburst (Palladium) window with marine wood below it from a decommissioned bait barge off the coast of San Diego. We designed this structure to portray the sun (sunburst window) rising over the ocean (marine wood) with the white boards envisioned as the white caps on the ocean. The rust in the metal elements was designed to bring out the rust in the marine wood. Some of the marine wood even has barnacles still on it.

At *A Place to Grow*, we believe in creating functionally artistic outdoor spaces for our clients.

If you have a special place in your yard for your own unique structure, please give us a call at 805.704.1155 or email at [Dana@RecycledGreenhouses.com](mailto:Dana@RecycledGreenhouses.com)

## We Have Chicken Coops!

We recently built a chicken coop from reclaimed fence boards, corrugated metal and other scrap material from other projects. We are passionate about keeping construction waste materials out of the landfill by using them to create outdoor structures that are functional yet artistic!

This chicken coop is definitely "eggceptional" in that it functions as a coop yet has the artistic flair that makes it unique! What

chicken wouldn't love to lay her eggs in there? We also offer a chicken run that can be attached to the coop.

Come by our shop to see if this coop will work for you. It can hold up to 6 chickens and is built to be modular and moveable. The timing is great to start thinking about purchasing a coop for the spring season and baby chicks!

## 100% Reclaimed Wood Potting Tables & More!

We are excited to offer unique potting tables in addition to our recycled structures!

This potting table is made of 100% reclaimed wood and has been re-purposed into a functional table that would complement any garden. We offer a delightful selection of these useful, yet artistic potting tables for sale at our shop located at 445 B Prado Road in San Luis Obispo. These tables come in 4' and 6' lengths and make great gifts!

We also have garden arbors, which would be great for events or as an entrance to your garden! Come by and see what's in stock. We also have our smaller garden products, including potting tables, arbors and chicken coops at Farm Supply in San Luis Obispo and Arroyo Grande.

## Calendar of Upcoming Events
