**Greetings!**

Our showcase season is in full swing here at *A Place to Grow*, and we've been busy! We recently participated in the San Luis Obispo Inspired Home Expo at the Alex Madonna Expo Center on May 2nd & 3rd and met many wonderful people that shared our passion for re-purposing! This past weekend we spent three days in Morro Bay for the Memorial Day Weekend Art in the Park event. What a wonderful event it was to showcase our structures as the art that they truly are. Each of our structures are unique, numbered and come with a certificate of authenticity.

Next up we will be in Shell Beach on June 7th at the [12th Annual Art in the Park at Dinosaur Caves Park](#). We would love to see you there!

If you haven't had the opportunity to see our commercial that is airing on the local charter channels, here is a link to the [you tube video](#)

At *A Place to Grow* we specialize in creating unique outdoor living spaces for you to grow, whether it's a greenhouse to grow plants, an artist studio/meditation retreat to grow spiritually or a hot tub enclosure to grow peace and tranquility. As soon as you are ready to start designing your own unique structure, please respond to this email or call us at 805.704.1155.

You received this newsletter because you expressed an interest in *A Place to Grow* by signing up with us at one of our events or on our web page.

We look forward to talking with you soon!

Dana

## May's Featured Structure, The Nantucket!

We recently created this unique and artistic outdoor beach style cottage that reminds us a lot of Cape Cod. We believe it would make a great artist studio or meditative space where you can light a candle, sip your tea or wine and read your favorite book!

This structure is truly a work of art from the tinted blue paint with a white wash over it to the vintage windows thru-out. Of course the bright red antique Dutch door with an antique crystal knob is a show stopper. It is complemented by another bright red door that drops open on the back wall. Both side walls feature windows framed in the

shape of a diamond giving it that artistic touch that we love here at *A Place to Grow*. You need to see it to truly appreciate the artistic detail that went into creating this amazing structure.

The Nantucket is currently available for \$15,500. If you would like to purchase this beautiful structure or schedule an appointment to talk about creating your very own *Place to Grow* please respond to this email or give us a call at 805.704.1155.

## Happy Client Spotlight

At *A Place to Grow* we pride ourselves on creating sacred spaces that help our clients grow in whatever way they choose.

We created this unique and artistic outdoor greenhouse in this space that our clients were already using as a temporary shelter for their succulents during the cold winter months. They are so happy with their new, custom greenhouse!

Our goal was to create an environment that protected their plants, yet was more permanent and looked like it belonged. The two openings between the existing column were enclosed with two separate panels. One with small doors that allowed access and the other with windows that opened up high to let hot air escape. The window wall features 100 year old windows that have old, wavy glass. It also features a square window that was framed in the shape of a diamond, giving it that artistic touch that we love here at *A Place to Grow*!

If you would like to schedule an appointment to talk about creating your very own *Place to Grow* please respond to this email or give us a call at 805.704.1155.

## Giving Back...

At A Place to Grow we are passionate about children's causes. We have had the opportunity to donate two greenhouses to different children's organizations, San Luis Obispo Montessori School and Bellevue Santa Fe Charter School. In addition we have also donated arbors, potting tables and mission tile succulent gardens to various other children's organizations.

In the past month we donated a potting table to Habitat for Humanity in San Luis Obispo for their annual silent auction. Habitat builds and renovates homes to improve communities by

partnering with families in need. Money raised at the auction will help to finance their ongoing charitable projects.

## Light and Bright Custom Sheds

We recently created this custom, unique shed made from salvaged wood, corrugated metal and antique windows. Placing the antique windows in the doors really opened up the shed by letting light in. We also used a mixture of old metal and a clear polycarbonate on the roof to let additional light in. Traditional sheds are dark, making it hard to find things in the back of your shed.

The shed also features shelves on the left side and an open area on the right to hang your tools. This shed is 5' x 3' however we can build them to your specifications.

Our structures at A Place to Grow are works of art in every sense.

If you would like to come by our workshop or schedule a design consultation, please call 805.704.1155 for an appointment.

## 100% Reclaimed Wood Potting Tables & More!

We are excited to offer unique potting tables in addition to our recycled structures!

This potting table is made of 100% reclaimed wood and has been re-purposed into a functional table that would complement any garden. We offer a delightful selection of these useful, yet artistic potting tables for sale at our shop located at 445 B Prado Road in San Luis Obispo. These tables come in 4' and 6' lengths and make great gifts!

We also have garden arbors, which would be great for events or as an entrance to your garden!

Come by and see what's in stock. We also have our smaller garden products, including potting tables,

arbors and chicken coops at Farm Supply in San Luis Obispo and Arroyo Grande.

## 15% Off Chicken Coops!

We are happy to be building chicken coops from reclaimed fence boards, corrugated metal and other scrap material from other projects. We are passionate about keeping construction waste materials out of the landfill by using them to create outdoor structures that are functional yet artistic!

These chicken coops are definitely "eggceptional" in that they function as coops yet have the artistic flair that makes them unique! What chicken wouldn't love to lay her eggs in one of these? We also offer chicken runs that can be attached to the coops.

Come by our shop to see which of these coops will work for you. They can hold up to 6 chickens and are built to be modular and moveable. With the 15% off discount, the timing is great to start thinking about purchasing a coop for the spring season and baby chicks!

---

## Calendar of Upcoming Events

### *June*

[12th Annual Art in the Park @ Dinosaur Caves Park](#) at the corner of Shell Beach Road and Cliff Ave. in Shell Beach, Sunday, June 7, 2015 10-5:00 pm
