Calendar of Upcoming Events

Greetings!

Our beloved "Diamond in the Rough" structure is currently on exhibit at the California Mid-State Fair and will be there through August 2, 2015. Be sure to stop by and see how we have displayed it in partnership with Armet's Landscape.

This is officially our busy season with many creative projects in the works for our clients. There has been a real impetus with the drought to remove water intensive lawns and landscapes and to install more water-friendly solutions, such as our outdoor lifestyle structures. We consider this a win-win and yet another way that we at *A Place to Grow* are helping the environment!

Recently, we were featured in a New Times article titled *A Place to Grow helps locals build a structure tailored to their outdoor-meets-indoor needs*. Here is a link to the [article](#), check it out!

At *A Place to Grow* we specialize in creating unique outdoor living spaces for you to grow, whether it's a greenhouse to grow plants, an artist studio/meditation retreat to grow spiritually or a hot tub enclosure to grow peace and tranquility. As soon as you are ready to start designing your own unique structure,

please respond to this email or call us at 805.704.1155.

You received this newsletter because you expressed an interest in *A Place to Grow* by signing up with us at one of our events or on our web page.

We look forward to talking with you soon!

Dana

July's Featured Structure: Man Cave

There has been a recent movement around "She Sheds" and the vast majority of our sheds have been "She Sheds". However, this shed is the proverbial "Man Cave" complete with a view of the horse shoe pit and a shelf that is the perfect height to set beer cans on! This is a rustic space where our client can store his yard tools and hang out with friends and family while tossing some "shoes".

This versatile structure features an open entry flanked by vintage shutters, a door hung horizontally as a window and rustic barn wood throughout. It is topped off with old corrugated

metal from the Bonetti Ranch property on Long Street in San Luis Obispo.

If you have any windows or other sentimental materials that you would like us to incorporate into an outdoor room, please call 805.704.1155 or email to schedule an appointment to talk about creating your very own *Place to Grow*!

Happy Client Spotlight: Nipomo Delight

At *A Place to Grow* we pride ourselves on creating sacred spaces that help our clients grow in whatever way they choose.

We created this unique and artistic outdoor "She Shed" for our client using old windows from her home and doors from her parent's home. She uses it as a greenhouse to grow food for her goats and pigs, as well as for her and her husband! She also has a comfortable chair in it to sit and relax. This wonderful client is so happy with her new, custom shed!

This truly has become her sacred space to grow peacefully.

If you would like to schedule an appointment to talk about creating your very own *Place to Grow* please respond to this email or give us a call at 805.704.1155.

Nantucket "She Shed"

This beach style cottage reminds us a lot of Cape

Cod. We believe it would make a great artist studio, "She Shed" or meditative space where you can light a candle, sip your tea or wine and read your favorite book!

This structure is truly a work of art, from the tinted blue paint with a white wash over it to the vintage windows thru-out. Of course the bright red antique Dutch door with an antique crystal knob is a show stopper. It is complemented by another bright red door that drops open on the back wall. Both side walls feature windows framed in the shape of a diamond giving it that artistic touch

that we love here at *A Place to Grow*. You need to see it to truly appreciate the artistic detail that went into creating this amazing structure.

The Nantucket is currently available for \$15,500. If you would like to purchase this beautiful structure or schedule an appointment to talk about creating your very own *Place to Grow* please respond to this email or give us a call at 805.704.1155.

Light & Bright Custom Sheds

This custom, unique shed was made from salvaged wood, corrugated metal and antique windows. Placing the antique windows in the doors really opened up the shed by letting light in. We also used a mixture of old metal and a clear polycarbonate on the roof to let additional light in. Traditional sheds are dark, making it hard to find things in the back of your shed.

The shed also features shelves on the left side and an open area on the right to hang your tools. This shed is 5' x 3', however we can build them to your specifications.

Our structures at *A Place to Grow* are works of art in every sense.

If you would like to come by our workshop or schedule a design consultation, please call 805.704.1155 for an appointment.

100% Reclaimed Wood Potting Tables & More!

We are excited to offer unique potting tables in addition to our recycled structures!

This potting table is made of 100% reclaimed wood and has been re-purposed into a functional table that would complement any garden. We offer a delightful selection of these useful, yet artistic potting tables for sale at our shop located at 445 B Prado Road in San Luis Obispo. These tables come in 4' and 6' lengths and make great gifts!

We also have garden arbors, which would be

great for events or as an entrance to your garden!
Come by and see what's in stock. We also have our smaller garden products, including potting tables, arbors and chicken coops at Farm Supply in San Luis Obispo and Arroyo Grande.

Chicken Coops 20% Off: Only 3 Left!

As eggs are getting more and more expensive, this is the perfect time to consider getting your own hens for a daily supply of fresh eggs.

We are happy to be building chicken coops from reclaimed fence boards, corrugated metal and other scrap material from other projects. We are passionate about keeping construction waste materials out of the landfill by using them to create outdoor structures that are functional yet artistic!

These chicken coops are definitely "eggceptional" in that they function as coops yet have the artistic flair that makes them unique! What chicken wouldn't love to lay her eggs in one of these? We also offer chicken runs that can be attached to the coops.

Come by our shop to see which of these coops will work for you. They can hold up to 6 chickens and are built to be modular and moveable. With the cost of eggs going sky-high, now is the perfect time to start raising your own chickens!

Calendar of Upcoming Events
