Greetings!

What are you doing for Labor Day? We will be celebrating all weekend long at the [Art in the Park Festival](#) in scenic Morro Bay! Come by and see all the artistic details in our stunning **Diamond in the Rough** structure. This spectacular outdoor room features a vintage diamond pane window with an artistic piece of "water" stained glass as a focal point. This window is situated between rustic wood and rusted sheet metal to provide an interesting juxtaposition of materials that catch your eye. Another feature of this unique outdoor room is a "wine bar wall" which features a French door as a window that drops to a flat bar surface. In addition there is a half wine barrel framed in the wall and some French oak red wine flavor sticks on either side of the door. These features truly reflect the essence of the wine country in San Luis Obispo county! The other wall features a glass sliding door as a picture window which is flanked on either side by wormwood boards that feature chunks of colored glass set in a beautiful clear resin. All of these eclectic elements combine to make this structure an extraordinary work of art.

August's Featured Structure: Ocean View Sunroom

We recently had the opportunity to create this unique sunroom in Los Osos. Our clients had an existing patio cover and wanted to fill in between the posts with our panels to create an artistic outdoor space that protects them from the weather. We brought in as much glass as possible to preserve their spectacular view of the ocean.

One of the panels features French doors that are predominantly glass, with another featuring a glass sliding door turned horizontally as a picture window. The other two panels have four wood framed windows per panel giving it an artistic appeal! Our clients said they have been spending a lot of time in their sunroom watching the ocean and relaxing!

If you have any windows or other sentimental materials that you would like us to incorporate into an outdoor room, please call 805.704.1155 or email to schedule an appointment to talk about creating your very own *Place to Grow*!

Happy Client Spotlight: SLO Custom Gate

At *A Place to Grow* we pride ourselves on creating custom, unique products that enhance our client's lives.

We created this unique and artistic redwood gate using urban forested lumber. Urban forested lumber is milled from trees that have fallen on their own or trees that an arborist has determined must be removed. We work with local mills that produce this lumber specifically for us to use in our structures.

Thanks to Josh for his amazing craftsmanship in creating this custom gate for our client! A quote from our happy client: "We really appreciate your meeting with us and really listening to what we would like, and then having Josh, who did an excellent job, communicate with us on choices etc... The outcome is beautiful!".
