A Place to Grow is growing! We are excited to announce that we have acquired *Pacific Coast Lumber (PCL)*, a boutique lumber products company located next to *A Place to Grow*! Now we can expand the products we offer while continuing our commitment to sustainability. *PCL* specializes in urban forested lumber products. They source trees that are removed in urban areas, thereby keeping them out of the landfill. *PCL* then processes these trees into various useful lumber products such as large slabs for tables and countertops, live edge siding, live edge picnic tables and other rustic structures. *PCL* will now become the main supplier of lumber for the reclaimed structures that we create here at *A Place to Grow*.

More good news! We recently won an award from the United States Green Building Council. See below for the details.

At *A Place to Grow* we specialize in creating unique outdoor living spaces for you to grow, whether it's a greenhouse to grow plants, an artist studio/meditation retreat to grow spiritually or a hot tub enclosure to grow peace and tranquility. As soon as you are ready to start designing your own unique structure, please respond to this email or call us at 805.704.1155.

You received this newsletter because you expressed an interest in *A Place to Grow* by signing up with us at one of our events or on our web page.

We look forward to talking with you soon!

January's Featured Structure: Los Osos Music Shed!

We recently had the opportunity to create this

unique and artistic Music Shed for a client in Los Osos!

This shed will house our client's musical instruments while also providing a place for him to play in between performances. The oversize deck out front offers a place to sit and just enjoy the Music Shed with the doors open, thus bringing the outside in and the inside out.

To schedule an appointment to talk about creating your very own *Place to Grow* please respond to this email or give us a call at 805.704.1155.

Happy Client Spotlight: San Luis Obispo Greenhouse

One year later we caught up with our client to see how she is enjoying her greenhouse. She said that her orchids are loving it!

This particular greenhouse is special for many reasons. Our client's close friend gave her all the windows for her greenhouse, which amazingly matched the color of a door that she had attached to her deck. We also incorporated a colorful, hand carved, wood door that she had purchased in Mexico years ago. We framed the door in at the bottom of the back wall so that she could enjoy it while working in her shed. This spring our client plans to turn her greenhouse into an

incubator when she brings in her baby chicks!

If you would like to talk to us about designing an outdoor room for you and have any windows or other sentimental materials that you would like us to incorporate into it, please call 805.704.1155 or email to schedule an appointment to talk about creating your very own *Place to Grow*!

We Won the 2015 Green Innovation Award from USGBC!

Last month we were recognized for our innovative business practices at the US Green Building Council (USGBC) Central Coast Award Gala in Santa Barbara, CA. A *Place to Grow* was honored with the Green Innovation Award for a beautifully designed and hand crafted greenhouse structure featuring urban forested redwood milled from a San Luis Obispo tree that had to be removed due to a restaurant fire. [The award-winning structure](#) also featured vintage windows and doors, repurposed corrugated metal and French oak wine flavor sticks that were retrieved from a local winery.

One of USGBC's core principles is to create a regional network of green building professionals who are committed to sustainable design.

100% Reclaimed Wood Potting Tables Make Great Outdoor Beverage & Dessert Stations!

We are excited to offer unique potting tables that can also be used as an outdoor beverage and dessert station for your next party!

These lovely tables are perfect for backyard entertaining. They will hold all your beverages with style and stand up beautifully to the weather and spills. Our tables are made of 100% reclaimed wood and have been re-purposed into functional tables that would complement

any festive gathering in your garden.

We offer a delightful selection of these useful, yet artistic potting tables for sale at our shop located at 445 B Prado Road in San Luis Obispo. These

tables come in 4' and 6' lengths and make great gifts.

Come by and pick out your reclaimed wood table!
