Jones**

**New: Live Edge Redwood Slab
Tables For Sale!**

Calendar of Upcoming Events

We have had a busy winter this year and are about to get even busier! Our 2016 show season just began with the Paso Robles Inspired Home Expo on February 20 & 21 at the Mid State Fairgrounds. We talked to many great people and showcased our new show booth (pictured above) that features live edge siding, a custom made barn wood door and many vintage windows. We also won Best in Show for the same event!

At *A Place to Grow* we specialize in creating unique outdoor living spaces for you to grow, whether it's a greenhouse to grow plants, an artist studio/meditation retreat to grow spiritually or a hot tub enclosure to grow peace and tranquility. As soon as you are ready to start designing your own unique structure, please respond to this email or call us at 805.704.1155.

You received this newsletter because you expressed an interest in *A Place to Grow* by signing up with us at one of our events or on our web page.

We look forward to talking with you soon!

Dana

February's Featured Structure: Arroyo Grande Barn

We recently had the opportunity to give this existing metal barn a face-lift with our beautiful reclaimed wood and windows!

This barn faces the house and now brings a lot of pleasure to our client as she looks out her

window. It also protects her goats, chickens & ducks from the weather and houses her tractor when they are not using it!

What a fun project this was transforming a functional barn into a work of functional art! If you have a space you would like transformed using our eye for design and reclaimed materials, give us a call. We'd be happy to schedule an appointment to talk about creating your very own *Place to Grow*, so please respond to this email or give us a call at 805.704.1155.

Happy Client Spotlight: Los Osos Greenhouse

We recently caught up with our client in Los Osos to see how she is enjoying her greenhouse.

This particular greenhouse is special for many reasons. It has dual pane windows, some of which had moisture between the panes at some point. Because of this, these windows were destined for the landfill. Instead we were able to create this beautiful greenhouse! The windows being dual pane also provide good insulation for our client's plants during the winter months. She has filled her greenhouse with her beautiful ferns, orchids and various other plants

and flowers.

If you would like to talk to us about designing an outdoor room for you and have any windows or other sentimental materials that you would like us to incorporate into it, please call 805.704.1155 or email to schedule an appointment to talk about creating your very own *Place to Grow*!

Meet Our Carpenter, Zachary Jones

Zachary Jones, also known as ZJ, has been working with us part time for the past two years while attending Cal Poly. He graduated Cal Poly with a degree in Industrial Engineering December 2015 and joined us full time in January! We are excited to have ZJ working with us as an apprentice carpenter learning all the "tricks of the trade"!

ZJ came to San Luis Obispo in August of 2010 to study at Cal Poly. We met him through the Cal Poly Men's Lacrosse Program where Sean had the pleasure of coaching him for his entire lacrosse career. ZJ grew up in the San Diego area where he lived with his parents and two sisters. He enjoys all sports but particularly basketball, lacrosse and spike ball. ZJ's other interests are hiking, backpacking and camping. When asked what he likes about working with us here at *A Place to Grow* he said that he likes the sustainable nature of the business, learning new skills and the relaxed and friendly environment. He also said he is excited about the marriage of *A Place to Grow* with *Pacific Coast Lumber*.

We are happy to have ZJ on our team and look forward to him "growing" with us!

We Have Beautiful Redwood Slab Tables

We are excited to offer unique, live edge redwood

slab picnic tables! These lovely tables are perfect for backyard entertaining or can even be used inside your home. They will provide the space to share meals with friends & family in style! Redwood will also stand up beautifully to the weather and spills.

These tables are made of 100% urban forested wood, which comes from trees that have to be removed from in urban areas. Instead of going to the landfill, they are diverted to our mill and custom milled to create various lumber products.

These tables complement any festive gathering in your garden or home!

These beautiful tables are for sale at our shop located at 445 B Prado Road in San Luis Obispo. Come by and pick out your table soon as we only have a couple in stock!
