Happy Earth Day! Celebrated annually on April 22, events are held worldwide to demonstrate support for environmental protection. It was first observed in 1970, and is now coordinated globally by the Earth Day Network and celebrated in more than 193 countries each year. Here at *A Place to Grow* we celebrate Earth Day each and every day. We are an environmentally friendly company specializing in keeping construction waste out of the landfill and re-purposing it into functionally artistic sheds that serve many purposes!

At *A Place to Grow* we focus on creating unique outdoor lifestyle spaces for you to grow, whether you are looking for a greenhouse to grow plants, an artist studio/meditation retreat to grow spiritually or a hot tub enclosure to grow peace and tranquility. As soon as you are ready to start designing your own unique structure, please respond to this email or call us at 805.704.1155.

You received this newsletter because you expressed an interest in *A Place to Grow* by signing up with us at one of our events or on our web page.

We look forward to talking with you soon!

Dana

## **April's Featured Structure: SLO Entertainment Shed!**

We recently had the pleasure of creating this party shed for our clients who are eagerly anticipating the wedding of their daughter. Their new shed will be used to serve appetizers and beverages for the auspicious event!

When not being used for the wedding this shed overlooks the volleyball court and supports Friday night cocktail hour! The drop down bar door makes it versatile as a place to serve cocktails or to pull up a wine barrel bar stool to share a meal in their beautiful backyard. The lights make it perfect for nighttime use as well! With French doors in the front and the back of the shed it really opens it up, bringing the outside in and the inside out!

If you have a space you would like transformed using our eye for design and reclaimed materials, give us a call. We'd be happy to schedule an appointment to talk about creating your very own *Place to Grow*, so please respond to this email or give us a call at 805.704.1155.

## Happy Client Spotlight: Atascadero Wine Shed

We caught up with our client in Atascadero to see how she is enjoying her greenhouse. It turns out that she has been too busy to use it as a greenhouse and is instead using it as a wine shed! She and her partner sit out and share some wine while feeling truly grateful for all that they have, including the breathtaking view from their wine shed!

This shed is special in so many ways. Our client has collected stained glass and leaded glass windows for years and worked with us to design this amazing shed using all of her windows and 2 stained glass doors that we turned into windows! It is truly unique and an art piece in and of itself.

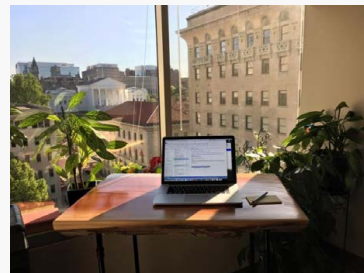

Our client has since been inspired to start collecting these windows to offer for sale to anyone who is looking for a unique stained glass or leaded glass window. You can view them at <https://www.facebook.com/AntiqueGlassWindows/photos>, so find some windows and we will build you a shed!

If you would like to talk to us about designing an outdoor room for you and have any windows or other sentimental materials that you would like us to incorporate into it, please call 805.704.1155 or email to schedule an appointment to talk about creating your very own *Place to Grow*!

## Custom Redwood Live Edge Standing Desk

Last month we shared with you about Dana's sister-in-law, Val who requested a live edge standing desk. Well, here is a picture of it in its new home in Richmond, Virginia! Val shared in a Facebook post, "In addition to loving what I do, I love where I do it. Thank you Dana O'Brien and *A Place To Grow* for my beautiful new desk and view on the world." We are happy to see how fabulous Val's new desk looks in her office!

If you would like a standing desk or custom table using a "jacket board" gives us a call at 805.704.2161

## We Have Beautiful Redwood Slab Tables

We are excited to offer unique, live edge redwood

slab picnic tables! These lovely tables are perfect for backyard entertaining or can even be used inside your home. They will provide the space to share meals with friends & family in style! Redwood will also stand up beautifully to the weather and spills.

These tables are made of 100% urban forested wood, which comes from trees that have to be removed from urban areas. Instead of going to the landfill, they are diverted to our mill and custom milled to create various lumber products.

These tables complement any festive gathering in your garden or home!

These beautiful tables are for sale at our shop located at 445 B Prado Road in San Luis Obispo. Come by and pick out your table soon as we only have a couple left in stock!
